

## INTERESTING NOTES FROM SIBERIA

Compiled by U. S. Consul John F. Jewell, Vladivostok.

**Amur River Vessels.**—During 1910 there were 218 steamers, 23 motor boats, and 292 barges plying on the Amur river and tributaries, the deepest draft being 4½ feet.

**Quicker Transportation.**—The Vistula River Railway lines have introduced direct freight connections between Warsaw and Siberia, by means of which the transportation of goods from Russian Poland will be shortened from 16 to 20 days. The line runs from Warsaw to Moscow via Brest, Minsk and Smolensk.

**Caviar Prices.**—According to information from Nicolaevsk, the prices on Keta and salmon caviar are gradually increasing, \$1.10 to \$1.15 per pool (36.112) pounds being offered for Keta and \$6 to \$7 for salmon caviar during the latter part of November, as against 9 to 95 cents and \$4 to \$4.75, respectively, a month previous.

**Arctic Navigation Possible.**—Captain Webster, of the British yacht Nimrod, who made a successful attempt during 1911 to reach the mouth of the Yenisei river via the Kara Sea, has presented to the Russo-English Chamber of Commerce at St. Petersburg valuable information, which proves that regular steamship communication can be maintained between western Europe and the ports on the Arctic coast of Siberia.

**Army Telephones.**—During 1911 the troops of the Primur military district used portable field telephones of a new pattern, manufactured by Siemens & Halske. The new telephones are carried in a knapsack, and the coils of wire are carried in the same manner. The third battery of the sixth artillery brigade used the new telephones during the fire practice from November 2 to 4, and they give an excellent report regarding them.

**Immigration.**—The statistical department of the Siberian Railway gives the following figures covering the immigration into Siberia during the last ten years to January 1, 1911. During this period 2,744,861 immigrants of both sexes entered Siberia, and during the same period 650,969 left Siberia, not having succeeded in finding a suitable home. The greatest number of immigrants was in 1908, when 705,072 arrived, and the greatest number returning was in 1910, when 124,608 immigrants left Siberia.

THE

## "Vintage"

pattern of sterling silver flatware is in French gray finish, with grape design on the handle. This pattern has both weight and appearance in its favor. We invite your comparison of this pattern in price and weight with any obtained elsewhere.

**H. F. Wichman & Co., Ltd.**

Leading Jewellers.

"You Can't Beat It"

That's what everybody says who uses

**PACHECO'S DANDRUFF KILLER.** This marvelous tonic banishes dandruff, stops falling hair and cures itching scalp or prickly heat. It relieves eczema instantly.

Sold by all druggists and at PACHECO'S BARBER SHOP, Fort Street.

## WATCH ON AUTOS AT THE CORNERS

Motor Officer Chilton was busy today with Assistant Abreau at the corner of King and Fort streets. Chilton has resolved that the automobile drivers have had too much of their own way in the past, and that he will make them go as close to the regulations drawn up for public safety as possible. Now they have to make a proper sweep, and get on the correct side of the road instead of shooting straight across, as so many of them have been doing in the past.

## GOVERNOR TOILED THROUGH SUNDAY

Governor Frear was absent from his office for a few hours this morning and afternoon. The chief executive departed in his automobile, and the anxious newspapermen could not locate him at noon.

The governor spent the whole of yesterday in his office, where he put in a hard day's work, looking up records and making notes from them relating to the Kuhio "charges."

The governor is limiting his hours for receiving visitors, only giving audiences between the hours of ten and noon now.

## LEE SAI CHARGED

This morning's arrests included Lee Sai, charged with assault with intent to kill; K. Takahashi, embezzling a suit of clothes valued at \$30; and Marie and Juan E. Odrède, profane.

Lee Sai wanted his 15-year-old daughter to marry a friend of his. The young lady refused to do so and to escape her father's wrath shut herself up in a kitchen back of a store near Pauahi and Maunakea streets.

This action enraged her father as that he fired a couple of shots through the wall of and into the room in which his daughter was hiding, the bullets passing close to her head.

It is stated that Lee Sai has threatened his daughter on previous occasions.

## Union Church Is Dedicated

(Special Wireless to The Star) WAILUKU, January 22.—The new edifice of the Union church here was dedicated yesterday with impressive services.

The building cost thirty thousand dollars and its construction, occupying only a year's work, was a great achievement. Three hundred people, including a great array of clergymen, from all parts of the islands were in attendance at the dedication.

Rev. D. Scudder, D. D., pastor of Central Union church, Honolulu, preached the dedication sermon in the morning. It was an able discourse, the topic being, "If any man seeketh the ministry he desireth good things."

A great union service was held last night, all nationalities and denominations being in attendance. Sermons were preached in Hawaiian, Chinese and Japanese.

## HENRY TRIES TO AVOID SENTENCE

Harriman Henry, who was convicted in the United States district court last week of perjury before the grand jury, was not sentenced this morning as had been intended. Henry's counsel appeared in court and asked for a continuance in order to prepare a motion in arrest of judgment. The request was granted.

This prevented the trial of Louis Cordon, accused of a similar offense. As the facts in both cases are closely related, C. C. Bittling, for the government, stated that he did not care to proceed with the Cordon case until after Henry had been sentenced. It was therefore decided that the case of Emil Scott, charged with assault on the high seas, should be taken up next, and the trial of that case was set for this afternoon.

It is stated, on the authority of an anonymous labor union man, that the organization of the Territory will carry the fight of the Hilo union against the Lord-Young company, with regard to non-citizen labor on the breakwater, to Washington for ventilation in Congress.

## TWO LAND SALES

James F. Morgan, by E. L. Schwarzberg, sold at public auction last Saturday two valuable pieces of real estate. A piece of land fronting on Alapai street at the corner of Hotel was purchased by the Henry Waterhouse Trust Company for \$8000. The property was sold under foreclosure proceedings brought by the Western and Hawaiian Investment Company. The bidding started at \$2000 but the bids were large ones and the price at which the property was sold was quickly reached.

The other tract, a long piece running from the Fort street extension to Punchbowl road in the Paua district, was bought by Arthur Spitzer for \$7675.

## BANK OF HAWAII

(Continued from Page One.)

E. D. Tenney, vice president; Castle & Cooke, Ltd.; A. Lewis, Jr., vice president and manager; E. F. Bishop, president; C. Brewer & Co., Ltd.; F. W. Macfarlane, president; Libby, McNeill & Libby, Honolulu; J. A. McCandless, president; Hawaiian Electric Company, Ltd.; C. H. Atherton, treasurer; Ewa Plantation Company, Ltd.; George R. Carter, director; Hawaiian Trust Company, Ltd.; R. A. Cooke, director; Lewers & Cooke, Ltd.; F. B. Damon, cashier; F. C. Atherton, secretary; director J. B. Atherton Estate, Ltd.

**The President's Report.** To the Stockholders of the Bank of Hawaii, Ltd.

Gentlemen: The year just closed marks the fourteenth anniversary in the history of your institution, and the management begs to present herewith the annual statement for the year ending December 31, 1911, and the same is submitted under the usual schedules.

**Gratifying Growth.** It is a pleasure to report that your institution has shown a satisfactory growth in all departments, deposits having on December 31 reached the sum of \$4,732,206.92 from \$4,152,685.83, 1910; sales of exchange amounted to \$12,506,211.81. The gross profits were \$164,497.97, from which expenses and losses were charged off amounting to \$81,541.43, leaving a net profit of \$82,956.54. Out of this amount the annual dividend of \$48,000 was paid and \$34,956.54 carried to undivided profits.

During the year \$100,000 was transferred from undivided profits account to the surplus account, making that account \$500,000, and still leaving \$85,057.33 in undivided profits.

**Reflects Territory's Prosperity.** The sugar season of 1911, amounting to 566,821 tons, the largest in the history of these islands, combined with the high prices obtained, has made the year just completed one of great prosperity for this community, and your institution has only reflected the general prosperity of the Territory.

On July 28, 1911, the Territory of Hawaii offered in New York \$1,500,000 4 per cent Public Improvement Bonds. These were sold to the successful bidders on an interest basis of .0388. This is the highest price at which Territorial bonds have sold, and the returns show the high favor in which our Territorial securities are rated. Your institution was the only local bidder, and our bid for \$250,000 at par was too low for us to receive any of the issue.

On account of the amount of funds on hand and the consequent lowering of interest rates, it was found necessary to lower the rate of interest paid on ordinary deposits in the Savings Department from 4½ to 4 per cent, the new rate going into effect on January 1, 1912.

Your branch bank at Lihue, Kauai, has shown a steady gain, and I am pleased to report that the Lihue plantation has agreed to sell a satisfactory lot at Lihue, and that shortly we hope to erect thereon a suitable building for a permanent home of that branch of your institution.

**Projected Building Improvement.** Plans have been completed, and before the next annual meeting of our stockholders we hope to be in our enlarged quarters in this building. The new plan calls for a rectangular center public lobby, and we trust, give your institution a most convenient, well arranged office. We trust that all our friends will bear with us during the unfortunate period of doing an active business while the changes are going on.

In closing this report I desire to express my personal thanks to each member of the Board of Directors, as well as to each of our employees, who have so faithfully worked to advance the best interests of The Bank of Hawaii, Ltd., in its various departments.

Respectfully submitted,  
C. H. COOKE,  
President.  
Honolulu, January 3, 1912.

Fine Job Printing at Star Office.

## CHRISTIAN EXTENSION

The executive committee of the Christian Extension Movement met at the Y. M. C. A. building today at half past twelve. There were present James Wakefield (chairman), W. A. Bowen, W. G. Hall, A. G. Smith, Rev. A. A. Ebersole and D. C. Peters, and Paul Super.

The committee is now meeting every Monday and Thursday, getting the movement planned. It is expected that it will be one of the most important religious movements ever conducted in this city.

The main outlines of the plan are that there will be a series of meetings in a large and suitable central place every night beginning March 18 to last until April 1. These meetings will be addressed by the clergymen from the five co-operating churches as follows: St. Andrew's Cathedral, St. Clement's chapel, Central Union church, Methodist church and the First Christian church.

In addition to these men's meetings will be held in various parts of the city, with special meetings for women and also special meetings for boys. Mr. Butler, formerly an operating singer of New York, but who for some years has given his time to singing in religious work, will arrive here in the Siberia on March 11 to organize the course and take charge of the singing. Mr. Butler has had wide experience in oratorio and it is quite likely that the singing will be a strong feature of the meetings.

Men and women of the five co-operating churches have been organized into committees, some of which have already begun the definite duties assigned to them. Leaders of the campaign feel that they have devised a scheme of presenting the claims of the Christian religion to the men and women of the city in a thorough, dignified and businesslike way, such as has never been undertaken before. By the time the meetings begin on March 18 it is probable that no fewer than a thousand people will have been organized into the movement.

The interdenominational personal workers' training class is being conducted by this movement. These meetings are held on the Y. M. C. A. building on Thursday nights from 6:30 to 7:30, and men who are anxious to have a part in this campaign can best get into it by coming to these meetings, which are under the leadership of Dr. Scudder.

**Y. M. C. A. Notes.** On Tuesday evening next, January 30, at 8 o'clock, in Cooke hall, there will be an illustrated lecture on the life of Christ, by Rev. A. A. Ebersole. The magic lantern slides of Tissot's paintings of the life of Christ have been received from the mainland and will be used that night.

Men who wish to attend the lecture will call for tickets at the association office. Tickets will be ready for distribution on Thursday.

The Newcomers' Club, whose meetings are held on Sunday afternoons, is growing in popularity. There were fifty-two present at the meeting yesterday afternoon. The committee is planning to add a new feature to the supper hour part of the program. The committee will make an effort to have some out-of-town men talk for a few minutes to the men while eating supper. George Dyson will sing next Sunday afternoon at the meeting.

## PRICES HOLD UP IN LIGHT TRADING

Trading in stocks was unusually light this morning but prices held up well, Ewa, which fell off an eighth, being the only stock to show any depreciation, while nearly all others made material advances.

Hawaiian Commercial went up to 43, a block of 200 shares selling at that quotation. Oahu advanced an eighth to 34.62 1/2, at which figure 151 shares changed hands.

A block of fifteen shares of O. R. & L. sold at 144, an increase of a dollar over the last previous selling price. McBryde was inactive today, as it was Saturday, though it maintained its previous position. Only five shares were sold, the figure being 8.25. The bottom seems to have dropped out of the McBryde flurry and attention has been diverted to other stocks.

Waialua was stronger today than for several days previous, though there was little trading in it. The price advanced to 126.50, a block of ten and one of five shares changing hands.

**KAUAI ELECTRIC BOND CALL.** On and after March 1 the Kauai Electric Company will, through the Hawaiian Trust Company, call in all its outstanding bonded indebtedness, amounting to approximately \$150,000. This company is a subsidiary company of the McBryde Sugar Company and its plant is located at Wainiha, where

## HIST! ESCAPES ARE LOCATED

The Koreans in Honolulu employ a sort of sergeant-at-arms to keep peace and do any necessary detective work among that section of the community.

Through one of the Korean societies they have donated his services without pay to the police department for the purpose of assisting in the recapture of Chun Duck Soon, a Korean; and John Lua.

Sheriff Jarrett has accepted the offer, given the man a badge, and turned him loose on the trail.

The escaped convicts were reported in the neighborhood of Oahu College on Saturday.

Mrs. J. S. Bailey reported having had her milk stolen and a message was received at headquarters the same evening that two men had been seen in a vacant house on Wilder avenue opposite Oahu College.

Detectives went at once to the scene but failed to get any trace of the men with the exception of some fragments of food and a milk bottle.

One party in the neighborhood stated that two men had run through his yard earlier in the evening, one of whom was a native and the other a Korean.

High Sheriff Henry, Deputy Warden Wood and two or three police dogs came on the scene in response to a telephone message from Chief McDuffie. It was an off night with the dogs, however, and they did nothing but "woof." They had had their extra Sunday ration and it was a shame to drag the poor brutes out at that unseemly hour.

water power is utilized for the generation of the electric current that operates many of the mechanical appliances of the sugar company.

By the S. S. Wilhelmnia arriving tomorrow morning, Henry May & Co., Ltd., will receive a shipment of fresh California fruits and vegetables in season and "Puritan" Creamery butter. Telephone 1371.

Honolulu, Jan. 22, 1912.

## SMALL REMNANT TO BE DETAINED

Dr. Ramus went over the immigrants still remaining at Quarantine Island this morning, and resolved that he could not release more than twenty-two tomorrow. This will leave thirty-seven still on the island, and they will be discharged from time to time, as their condition warrants it.

The twenty-two to be released tomorrow will go over to the Territorial Immigration compound, and will leave for the other islands as quickly as possible.

Dr. Clark is expecting to hear from London soon, with regard to the sailing of the Harpallion, which steamer is to bring another big lot of immigrants to Hawaii.

## BY AUTHORITY

OFFICE OF THE TREASURER OF THE TERRITORY OF HAWAII.  
NOTICE TO VETERINARIANS.

In accordance with Act 71 of the Session Laws of 1911, entitled "An Act to Regulate the Practice of Veterinary Medicine, Surgery and Dentistry in the Territory of Hawaii," notice is hereby given that all persons practicing or intending to practise veterinary medicine, surgery or dentistry in the Territory of Hawaii, shall make application to the Treasurer of the Territory for a license to so practise.
